**Sixth Amendment of the Classification and Correlation of the Soils of Scott County, Indiana**

This sixth amendment was prepared by Gary R. Struben, Soil Data Quality Specialist, MLRA Region 11, Indianapolis, Indiana and Byron G. Nagel, MLRA Project Leader, North Vernon, Indiana.

**Page 8,** Change the "Approved map unit name" for the **Pml** "Publication symbol" from Pits, quarries to Pits, quarry.

**Page 8,** Change the "Approved map unit name" for the **RptG** "Publication symbol" from Rohan-Jessietown complex, rocky, 25 to 60 percent slopes to Rohan-Jessietown complex, 25 to 60 percent slopes, rocky.

**Page 14,** Replace the "Feature-MAR, Name-Marsh, Description-A small natural area intermittently or permanently water-covered, and dominantly has hydrophytic vegetation. Typically 1 to 5 acres." with the "Feature- WDP, Name-Wet Depression, Description-A shallow, concave area within poorly or very poorly drained soils that ponds water for intermittent periods and is saturated for appreciably longer periods of time than the surrounding soil. Typically 0.2 to 2 acres."

**Page 14,** Replace the "Feature- WAT, Name- Perennial water, Description- Small, natural or man-made lake, pond, or pit that contains water most of the year" with the "Feature- UWT, Name- Unclassified water, Description- Small, natural or man-made lake, pond, or pit that contains water, of an unspecified nature, most of the year."

**Page 15, Amend 37A to delete the following:**

OTHER BOUNDARY for Airport, airfield or cemetery;  
RAILROAD;  
DAMS, Medium or small;  
Church;  
School;  
Perennial, single line stream, (replace with Unclassified stream);  
Double line canal;  
Perennial drainage and/or irrigation ditch;  
Perennial water, (replace with Ad hoc No. 44 UWT, Unclassified water);  
Marsh or swamp, (replace with Ad hoc No. 18, WDP, Wet Depression);  
Severely eroded spot.

**Page 15, Amend the 37A to add the following:**

Unclassified stream;  
Ad hoc symbol No. 44 UWT, Unclassified water;  
Ad hoc symbol No. 18 WDP, Wet Depression.

**Page 24, from Amendment No. 5,** Change the classification of the Blocher Series from Fine-loamy,mixed, active, mesic Oxyaquic Hapludalfs to Fine-silty,mixed, active, mesic Oxyaquic Hapludalfs

**Page 25, from Amendment No. 5,** Change the classification of the Stendal Series from Fine-silty, mixed, active, acid, mesic Aeric Fluvaquents to Fine-silty,mixed, active, acid, mesic Fluvaquentic Endoaquepts

**Page 29, Clark County**, replace the join statement with the following:

The Clark County Soil Survey has been updated and re-correlated (February 2001) and an exact join has been made with Scott County.
